About me

My qualification by diploma is an **engineer-programmer**

That gives me programming skills and understanding of the software development process

I've completed the **Tester's School** in Softengi Training Center

That gives me deep theoretical knowledge and wide practical skills in testing software

I've had two contracts on **cruise ships** sailing to Europe and Caribbean and in total I've visited more than **25 countries**

That gives me great work experience in multinational teams as well as personal communication with customers from North and South America, UK, Europe and Asia

I operated my own **business** and held **senior positions** in different companies

That gives me an experience in sales and project management, business development and training of personnel
